

Organic Fertilizer

Utilizing highly concentrated natural raw materials, it contains significant amounts of nitrogen, phosphoric acid, potassium, sulfur, calcium, kaolin, boron and molybdenum.

Organic Fertilizer

Rich Farm

Item	Guaranteed
N	8
P	3
K	3
Organic Matter	60

Main Material of Rich Farm

Fish Meal, Bone Meal, Blood Meal

Rich Farm Feature

- High-quality, slow releasing "animal" protein fertilizer
- Contains high organic matter that continuously supply nutrients for up to 6 months after planting.
- Pure Korean technology that reduce labor cost, storage spaces and waiting time when producing farm made organic supplements.
- Organic materials enhance plant sweetness.

Han Yoobak

Item	Guaranteed
N	4
P	2
K	1
Organic Matter	70

Main Material of Han Yoobak

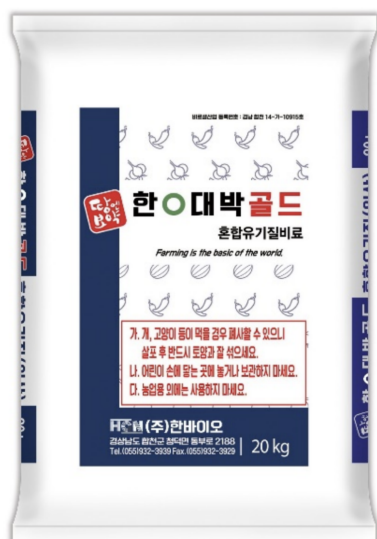

Caster Oil Meal, Rapeseed Oil Meal, Rice Bran

Han Yoobak Feature

- Promotes uniform growth and retains the unique taste of the product
- Accelerates the growth rate and improves the quality of acidified soil
- Acticates beneficial micro organisms and increases organic matter

Organic Fertilizer

Han Daebak

Han Gold

Item	Guaranteed
N	3.8
P	2
K	1.2
Organic Matter	60

Main Material of Han Daebak
Caster Oil Meal, Processed Chicken Manure, Bone Meal, Plant Oil Meal

Item	Guaranteed
N	3

K	1
Organic Matter	60

Main Material of Han Gold
Processed chicken manure, Plant Oil Meal

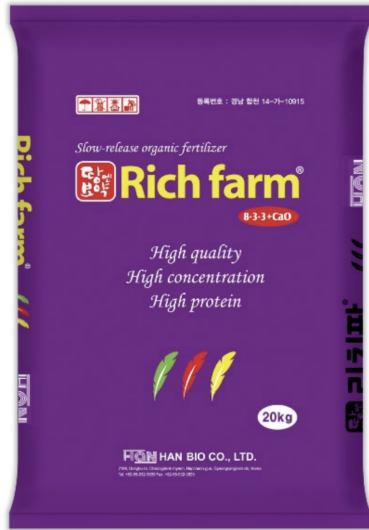

Han Daebak Feature

- Improve the physical properties of the soil.
- Improves acidified soil by vigorously activating micro organisms.
- Produces high-quality, high-grade agricultural crops with unique taste and flavor as high sugar content in uniform size.

Han Gold Feature

- Improves soil structure, soil permeability and soil moisture content.
- Improve the physiological activity of plant.
- Activate the beneficial soil microbes in the soil.
- Promote the growth of healthy plant.

RICH FARM

High-quality, slow releasing "animal" protein fertilizer

- Contains high organic matter that continuously supply nutrients for up to 6 months after planting.
- Pure Korean technology that reduce labor cost, storage spaces and waiting time when producing farm made organic supplments.
- Organic materials enhance plant sweetness.

Direction for use

Bag(20kg)/ 1,000m²

Time	Leafy Vegetalbes	Root Vegetables	Fruit vegetables	Fruits	Flower	Irrigation	Leafy Vegetalbes
Basal Fertilizer	12bags leek 10bags lettuce, sesame, chinese cabbage, spinach, crown daisy, cabbage 5bags water parsley	12bags garlic, onion, burdock, green onions 6bags carrots, radish, deodeok, potato, yam 5bags ginger, belflower 2bags sweet potato	12bags zucchini, chilli pepper, green pepper, eggplant, starwberry, cucumber, oriental melon 9bags melon, watermelon, tomato	10bags (10years old tree / 2~3kg) Persimmon, citrus, jujube, japanese apricot, pear, peach, apple, plum, grape	10bags Rose, chrysanthemum, camation and other flowers	4bags Rice	10bags Raseberry, comus, schisandra, ginseng, tea, tobacco, herbs 4bags grass
Horticulture	3bags sesame, leek 2bags water parsley	4bags garlic, onion, burdock, green onions 3bags yam 2bags carrots, radish, deodeok, ginger, belflower	3bags zucchini, chilli pepper, green pepper, eggplant, strawberry, cucumber, oriental melon, melon, watermelon, tomato	3bags (10 years old tree / 1kg) Persimmon, citrus, jujube, japanese apricot, pear, peach, apple, plum, grape	3bags Rose, chrysanthemum, camation and other flowers		

WARNING AND PRECAUTIONS

- Do not use together with chemical based fertilizer or supplement.
- Do not use as nursery soil due to unfermented nature.
- Store properly inside bag in a dry place.
- Keep away from children and do not feed to animals.

MATERIAL GUARANTEE

- Composition : 8-3-3% : N, P₂O₅ & K₂O
- Main materials: Fish Meal, Bone Meal, Blood Meal
- No Harmful Ingredients Detected

HAN YOObAK

Good-quality organic material Mixed fertilizer [Pellet]

- Promotes uniform growth and retains product unique taste.
- Accelerate growth rate and improve the quality of acidified soil
- Activates good micro organisms and increase organic matter

Direction for use

Bag(20kg)/ 1,000m²

Type of Crops	Name of Crops	Quantity
Fruit	Apple, pear, citrus, peach, citron, grape, plum, persimmon, etc	15kg for 1 mature tree 7.5kg for 1 young tree
Horticulture	Chili pepper, tomato, eggplant, oriental melon, cucumber, chives, strawberry, lettuce, etc	20 bags
Irrigation	Rice	15 bags
Other	Potatoes, garlic, chinese cabbage, onions, carrots, radish	20 bags

WARNING AND PRECAUTIONS

- Do not use together with chemical based fertilizer or supplement.
- Do not use as nursery soil due to unfermented nature.
- Store properly inside bag in a dry place.
- Keep away from children and do not feed to animals.

MATERIAL GUARANTEE

- Composition: 4-2-1% : N, P2O, & K₂O
- Main materials: Castor Oil Meal, Rapeseed Oil Meal, Rice Bran
- No Harmful Ingredients Detected

HAN DAEBAK

Good-quality organic material Mixed fertilizer [Pellet]

- Improve the physical properties of soil.
- Improve the acidified soil by vigorously activating microorganism.
- Produce good quality and high grade agricultural crops with unique taste and flavor, high sugar content in uniform size.
